Entered at the Kingman Postoffice as Second Class Mail.

Wilbur C. Bahecock, Justice of the Peace at Chloride, was a Kingman visitor this week.

Tom Ramsey, deputy sheriff and freighter, came over from Chloride on business yesterday.

Fred F. Brawn came in from Goldroad Wednesday last in his Ford car, returning home the same day. It is his intention to take a vacation this summer and will make a long trip in his car.

Miss Marie Frehsee, who has been the guest of her sister, Mrs. Charles Seeley, of Oatman, left Wednesday for her home in Baltimore, Md. Mrs. Seeley accompanied her to Los Angeles and San Francisco.

J. C. Kenwell, superintendent of Kingman public school the past year, leaves tonight for his old home in Jamestown, N. Y. He has accepted a position of superintendent of the public school at Clifton.

Mrs. C. W. Deming and family left yesterday evening for their ranch near Prescott, where they expect to spend the summer months. Rev. Deming will remain in Kingman most of the time.

Mrs. Ed. Williams came up from her home near the tungsten mines, near the Big Sandy, a few days ago, suffering with a broken arm. The fracture was reduced successfully and she is getting along nicely.

J. H. Rosenberg departed last evening to his old home in Cleveland, Ohio, where he will visit for some time, going from there to Rochester, where he will attend the Grand Lodge of Elks. He expects to be gone the greater part of two months.

O. M. Enslow and wife were Kingman visitors this week, being the guests of Mr. and Mrs. Kean St. Charles. Mr. Enslow is a civil engineer and is engaged in the work of surveying and locating agricultural or mining lands.

It is reported that the Colorado river is now rising rapidly, the cold weather of the past month holding back the flood waters. Near the head of the Colorado river the country is now aflood, which would lead to the impression that a great flow of water will soon reach the vicinity of Needles.

Charles Grimes and daughter came in from Pasadena yesterday and departed to Oatman in the afternoon. Mr. Grimes recently purchased twenty suits for the Oatman band boys and was anxious to see the lads togged out and on parade. The band consists of twenty pieces and have an instructor who is rounding them into shape for any occasion.

George Sowers, well known in this county, is now the manager of the Packard Motor Truck company for northern California and Nevada. He has been in Reno recently and sold many of these trucks. It is said that he is meeting with great success in his line. George was well liked here and his friends wish him well wherever he may go.

Work is expected to be commenced on the wagon road from Topock to Yucca some time after the first of the month. An effort will be made to have the first section of the work done under contract so that an estimate may be made to cover the amount secured from the bond issue in the building of other sections of road through the county.

James Uncapher and sister Miss Nina came over from Mineral Park last Monday evening and Wednesday evening Mr. Uncapher departed to Los Angeles, where he will enter one of the hospitals for the purpose of again submitting to an operation. Some months ago he was operated upon for stomach trouble, but the incisions healed badly and it is thought that the local wounds will have to be reopened and properly cared for. His many friends in this county hope that he will soon be fully recovered.

H. E. Bierce and wife and R. C. McCausland and wife returned from Los Angeles a few days ago, traveling by auto across the country.

Mrs. Fred Sturzenegger left for Hackberry last night where she will help nurse in the family of Henry Bacon for a week or so.

Hereafter all tubercular cases coming under the observation of local physicians must be reported to the local registrar of vital statistics.

Atha Leonard, who lived here many years, is again visiting Kingman. He has been employed the past three years in the Indian department of the government as assistant to surveyors.

J. S. and J. F. Withers have gone to their old home in Alabama, where they will visit with their mother and brother for a month, afterward visiting many of the eastern seaboard cities.

There was born to the wife of Hubert Smith, last Thursday morning, a baby boy. Mother and child are getting along nicely and the MINER editor is not overly pleased to learn that he is ancient enough to be called grandpa.

R. P. Wheelock is preparing signs for the Santa Fe Grand Canyon highway through this county, the models to be submitted to the board of supervisors for their action. The signs will be placed at intervals along the highway and at all crossroads.

Dr. Toler R. White, resident physician of the Gold Road mines company, came in from the big gold camp yesterday and has gone east on his vacation. He will be gone about six weeks. Dr. Whiteside has taken his place at the camp and will be absent from Kingman the better part of a month.

Flag day will be observed by the local lodge of Elks on the evening of June 14. Everybody in the town is requested to make the observance of Flag Day one of the events of the year. Patriotism must be fostered in this great land of ours, and the way to impress it on the rising generation is to impress it by song and story on the minds and in the hearts of the younger American generation.

Last Tuesday morning Mrs. M. E. Cohenour returned from Imperial Valley, and was accompanied by her son Fred and wife. Mr. Cohenour was recently married to a most estimable young lady and was engaged in business in the valley when taken ill with measles. An epidemic of small pox prevails in that section, and earthquakes appear to be of daily occurrence. Mr. Cohenour and wife will probably remain in Kingman and make it their home.

Yesterday Oatman celebrated in a way by a ball game between the home team and Kingman. The game was replete with slugging and when the slaughter was discontinued to take toll of the dead and wounded Kingman was found to have fifteen to their credit, while Oatman had but nine. Tommy and Jimmie, the Kingman battery, was invincible up to the eighth inning, when, with the bases filled Nichols lined out a homer for the home team, scoring four runs. This wound up the scoring for the Oatman's, and the few scattered runs made by Kingman in nearly every inning and the six runs in the 5th did the trick. The next game is to be played between Oatman and Goldroad, following which there will be a return game with Oatman at Kingman.

Last week a telegram was received at Yucca containing the information that Frank Kampff had been caved on in a stoep of the Climax mine, near Prescott, and to have a runner bring his brother in from Chemehuevis mountain, where he was at work on mining property. The unfortunate man had been working in the stoep of the mine alone and it is thought that he had been struck by a falling rock and knocked to the level below, a distance of about twelve feet, his neck having been broken by the fall. His body had been lying in the position in which it fell several hours and although it awoke when found he died within a few hours thereafter. Kampff brothers came to this county a few years ago and located a group of mines in the Chemehuevis mountains, where they put in a small mill. One brother, Fred, went to Yavapai county and was employed at the Climax mine, while the other one remained to develop their property.

J. C. Goulding and wife and W. G. Carleton came up from the San Francisco mine last night. A change has been made in the management at the mine, but it may be a few weeks before work will again be resumed. Mr. and Mrs. Goulding will remain in town for some time.

C. M. Bruce, at one time secretary of Arizona, during the second term of Grover Cleveland, has been appointed assistant commissioner of the general land office, his appointment being accredited to Arizona. Bruce never became a resident of this state, leaving a few weeks after the termination of his term of office and it is unfair to the state to name him as part of the patronage of Arizona. Mr. Bruce's home is in Virginia. While he is a rather good fellow let Virginia assume the ownership.

The land grant railroads of Arizona are liable to have a big boost in the matter of land liable to taxation. These railroads have been slow in the selection of their lands and the Santa Fe has tendered 306,476.90 acres for taxation in this county, while their total acreage is far in excess of a million acres. The old St. Louis & San Francisco railroad company has tendered 46,096.68 acres to the assessor. A few years ago the Circuit Court of Montana decided that land grants were subject to taxation, even though the selection had not been made. At least that is the inference of the decision. The cause grew out of the assessors of the state entering the railroad grant as a whole from which action the railroad went to the U. S. court, the court deciding that it had no jurisdiction to pass upon the taxing power of a state and the assessment stood. While many thousands of acres of the Santa Fe land grant are valueless the railroad company will in some way have to divest itself of ownership or be liable for the tax. It is also understood that all these lands will be taxed at a uniform valuation of seventy five cents per acre, which will bring quite a revenue to the county.

**Iron Cap to Sell
50,000 Shares Stock**

The Iron Cap Mining company is planning to sell 50,000 shares of common stock at \$4 per share. The company 22,786 shares of preferred and 73,196 of common stock in its treasury. There are 27,214 shares of preferred outstanding, the greater portion of which was issued under the reorganization plan. Only the preferred is listed on the Boston curb.

Since the reorganization preferred shares were sold to provide working capital. The company has sufficient cash to provide for its immediate needs and has 18,000\$ on subscriptions to its shares, a portion of which is due June 1, and the remainder at stated periods thereafter.

The company resumed shipments to El Paso recently. Assay returns show 53.8 per cent to 48.1000 per cent copper and recently shipments have included copper and silver glance carrying high values. This rich ore is coming from the 650-foot level. Ore shipments are paying costs of production.—Globe Record.

**Showing Good in Big
Pine Mine.**

C. H. Dunning, superintendent of the Big Pine mines, near Senator, while in the city yesterday expressed himself in a pronounced manner over underground conditions, stating that at no time in the history of the proposition has the showing been so attractive as at present.

The character of development is in driving the main tunnel from a designated point in the old workings, where the ore zone has been passed. As the new work progresses a magnificent body of ore is being proven, and so far as the tunnel has been run, there is a continuous body of over four feet, which is of a good milling grade. A permanent camp is established and as soon as conditions will warrant, the force is to be increased. This proposition is being financed by Richard A. Parker, the mining engineer of note, who resides in Denver, and who has been a frequent visitor to the property.—Prescott Journal-Miner.

George Connelly, who has been employed on Our Mineral Wealth for several months past, left for Flagstaff this morning.

Promotes Health of Liver

We believe you will be surprised to note how quickly Rexall Liver Salts will tone you up and make you feel better—more energetic, more completely your own normal self. Containing ingredients long recognized by successful physicians as valuable in the treatment of liver disorders, and the various other bodily ailments arising from them, Rexall Liver Salts not only assist the liver in removing poisonous waste matters from the body—which if not removed, are pretty sure to clog up and derange other organs, and perhaps lead to a general nervous break-down—but assist materially in promoting the general health. It is a pleasant relief from the old-fashioned salts, both in its more agreeable taste and in its exceedingly gentle, yet effective laxative action. Rexall Liver Salts are guaranteed by us to satisfy or money back. Price, 25 and 50 cents. Sold in this community only at our store.

The game of baseball last Sunday between Needles and Kingman was one of the best played here this season, and that this is so is expressed in the statement that Kingman won, the score being 6 to 0. The Kingman battery was invincible, pitcher Tommy Clark having everything that could be put on a ball to fool the batter. And Jimmie was there with the goods back of the plate. All the boys played fairly good ball, although it is apparent that some of the players should be released to the minors. Kingman should build up an exceptionally strong club and some effort should be made to fill the gap between mediocre players and the real thing. The Needles battery lacks training and while many of the boys played the game as it should be played the battery was at too much of a disadvantage to play winning ball.

The three year old son of Mr. and Mrs. Henry Bacon died at the family home in Hackberry last Tuesday morning, death being reported due to spinal meningitis. Another child is also ill with the dread disease, but the many friends of the family hope for its recovery. Where the child developed this disease is unknown, but precautions are being taken to prevent its spread.

WANTED—Lady to help with general housework. Apply to SYLVIA WHITMAN, Kingman, Arizona.

Dentistry.

Dr. Paul McIntosh left Thursday last for the Truxton Canyon Indian school, where he will be engaged for a week by the government in examining and working on the teeth of the wards of the government. School closes within a week and the teeth of the children have to be looked after before they get away from that institution.

**Most Prompt and Efficient Cure for
Bad Colds.**

When you have a bad cold you want a remedy that will not only give relief, but effect a prompt and permanent cure, a remedy that is pleasant to take, a remedy that contains nothing injurious. Chamberlain's Cough Remedy meets all these requirements. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and restores the system to a healthy condition. This remedy has a world wide sale and use, and can always be depended upon. Sold by all dealers.

Kimberly deceased, the undersigned, the administrator of said estate will sell at private sale, to the highest bidder, subject to confirmation by said Superior Court, on
Monday, the 30th day of June 1913,
at ten o'clock a. m., at the office of said administrator in Kingman, Mohave Co., Arizona, in the city of Kingman, in the said County of Mohave, State of Arizona, the following described real property, to-wit: The following described mining claims situate in San Francisco mining district, Utah, Wyoming, Colorado, Pacific and Atlantic.
The following described mining claims "Copper King", "Copper Grant", "True Blue", "Great Divide", "Comet" and "Copper Jack".
Terms of sale: Cash on confirmation of sale.
JOHN C. POTTS,
Administrator of the estate of
L. Kimberly, deceased.
Dated May 28th 1913.
First insertion May 31—June 28.

Harry LeClair this week paid a visit to the American Flag mine and looked the property over. The mine is one of the old ones of this county, having been discovered in 1876 by William Shoulters, who later sold it to Richards, Corin & Co. and later passing into the hands of the present owners. The vein has been opened to a depth of about 500 feet by tunnel and a great tonnage of ore removed. Hundreds of tons of this ore was shipped to Swansea, Wales, for treatment, the net return being above 500\$ per ton. Thousands of tons of low grade ore is now open in the mine and with a small expenditure this could be extracted and milled at a profit. The mine is about fifteen miles east of Kingman, in the high Wallpals. Mr. LeClair believes a good road to the mountain would prove one of the most attractive drives in northern Arizona. The road is now close to the pines and could be built into the forest with the expenditure of a few dollars.

Thursday last Kingman school closed for the term without the usual commencement exercises. While the buildings are inadequate for the purpose yet the children show marked advancement. The work of the sloyd class is excellent and many of the other departments show the effects of training. It is to be hoped that another year will see a new school building, well equipped for manual training and other branches that are now necessary in the public school curriculum.

A great calamity in Omaha was quickly overshadowed by the terribly disastrous floods in Ohio. Great suffering and sickness from colds and exposure resulted which Foley's Honey and Tar Compound helped to alleviate. L. Poole, 3217 California St., Omaha, writes, "My daughter had a severe cough and cold but Foley's Honey and Tar Compound knocked it out in no time. My wife would not keep house without it. We have used it for years, always with good results." H. H. Watkins, Druggist.

For Milady's Toilet

we have everything requisite. Tooth powders, pastes and washes, toilet waters, soaps, perfumeries, powders, creams, brushes, sponges, etc. We keep none but standard qualities at the drug store. Provide your dressing table with our toilet aids and you can rely on their being just such as a dainty woman needs. Moderate prices for best qualities is our motto.
